Urban Dictionary: Squint to be incapable of opening one's eyes more than just a slit.May result from constant exposure to smoke, i.e. in the case of a pothead, or in the event of being struck in the face by a piece of citrus fruit at high velocity. Squint | definition of squint by Medical dictionary Treatment.Treatment for strabismus varies with the individual case. A patch may be placed over the child's stronger eye for a period, forcing use of the weaker eye and thus restoring its strength as far as possible, instead of letting it grow worse from lack of use. Squint - Wikipedia Squinting is the action of looking at something with partially closed eyes.. Squinting is most often practiced by people who suffer from refractive errors of the eye who either do not have or are not using their glasses.Squinting helps momentarily improve their eyesight by slightly changing the shape of the eye to make it more round, which helps light properly reach the fovea.

Squint dictionary definition | squint defined The definition of a squint is a situation where the eyes are partially closed, or is slang for a quick look. Squint in Children (Strabismus) | Lazy eye in children ... The medical name for squint is strabismus. It is a condition where the eyes do not always look in exactly the same direction. The difference in eye direction may be very slight, and may not always be present. Squint | Article about squint by The Free Dictionary squint: see strabismus strabismus, inability of the eyes to focus together because of an imbalance in the muscles that control eye movement; also called squint. It is a consequence of weakness or uneven development of one or more of the six small muscles that surround the eye.

squint - Wiktionary - A tight little craft, was Austin's invariable comment on the matron; [â€]. - Near her wandered her husband, orientally bland, invariably affable, and from time to time squinting sideways, as usual, in the ever-renewed expectation that he might catch a glimpse of his stiff, retroussé moustache. (intransitive) To look or glance sideways.
